DESIRED POSITION

Flutter Developer

Specialization: Programmer, Software Developer | Employment: Full-time, part-time, project-based | Format: On-site, remote

WORK EXPERIENCE — 1 YEAR 6 MONTHS

Jun 2025 — Present
~9 months

Invan Soft Flutter Developer

- Built and maintained mobile and desktop applications for business management.
- Invan Mobile (admin panel): sales tracking, revenue reports, product management, orders, invoices, write-offs, supplier management.
- Tiin Loyalty — cashback & loyalty card app for supermarkets; 40,000+ downloads (Google Play & App Store).
- POS system at 100+ retail terminals — Payme, Click, Uzum and tasnif.soliq.uz tax API integration.
- Sroy Baza N1 — construction materials marketplace (Google Play & App Store).
- CarInfoPro — QR-based vehicle owner lookup for Uzbekistan roads (Google Play & App Store).

Jun 2024 — May 2025
1 year

Invan Soft Flutter Developer Intern

- Started from scratch — learned Flutter and Dart through hands-on training at Invan Soft.
- Practiced building real features and gradually transitioned into a full team member.
- Mastered BLoC/Cubit state management and Clean Architecture patterns.
- Contributed to live production projects under senior developer guidance.

Tools	Git, Google Maps API, WebView, Flutter Desktop
Languages	Uzbek — Native English — IELTS Band 6.0 (B2)

ABOUT ME

My name is Ayyubxon Ahmadjonov. I am a Flutter Developer currently working full-time at Invan Soft. I started from scratch — learning Flutter and Dart through hands-on training at the company, then grew into a full developer role. I focus on building reliable, scalable apps using Clean Architecture and BLoC. I have published 10+ apps on Google Play and App Store.
